

Student Design Kit

Serial Number: 9000 0084 6784 9087 KKZ7 9HB4

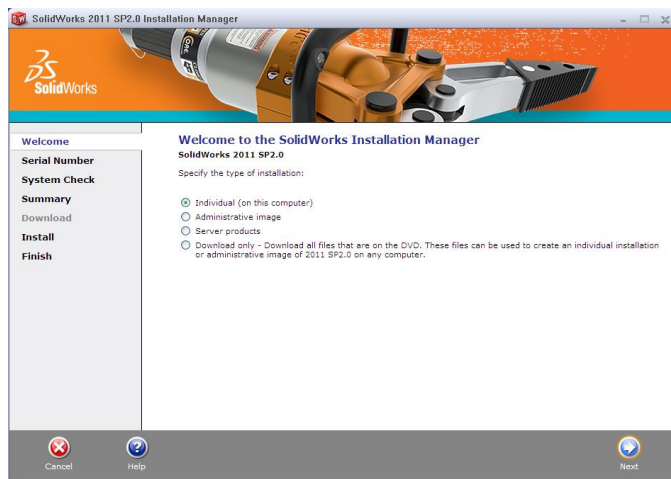

This installation will require **internet connectivity** and approximately **3Gb** of memory.

NB: Any previous versions of Solidworks should be removed before installing this version.

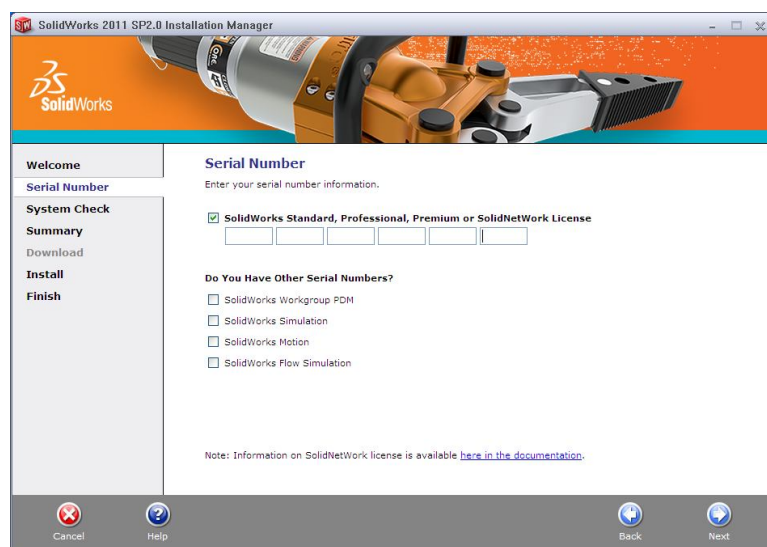

1. Insert the DVD and copy its contents to the Desktop, open the Student Design Kit folder and double click the Solidworks Installation manager.

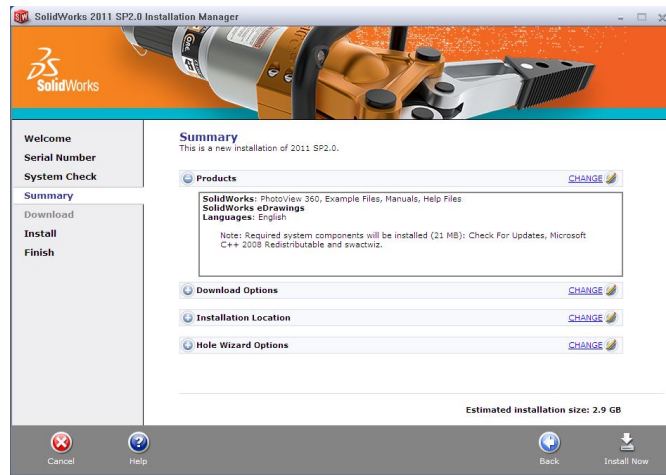

2. Choose the **Individual (on this computer)** option and click **Next**.

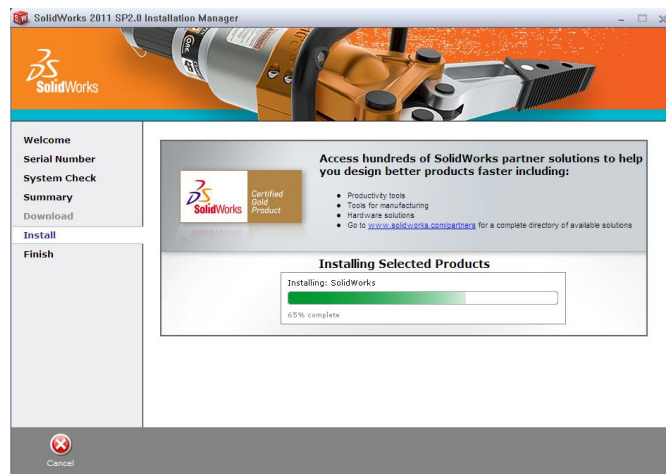

3. Enter the serial number **9000 0084 6784 9087 KKZ7 9HB4** in the boxes provided and click **Next**.

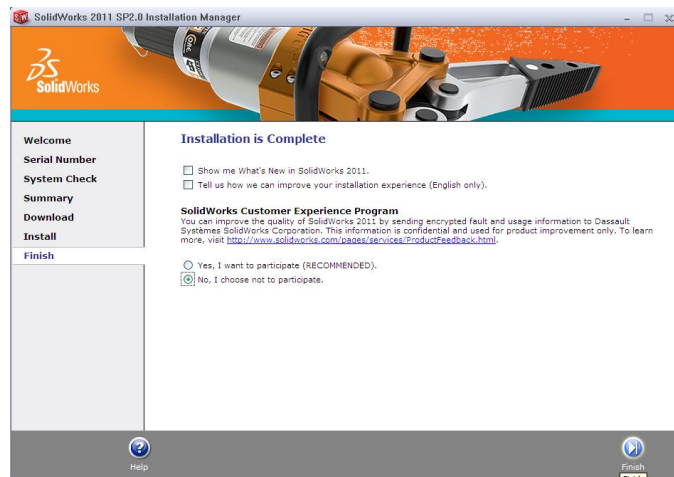

- Click the **Install Now** button at the bottom right section of the window.

- This will start the installation process, as this is a very large piece of software it may take some time to complete.

- Click **Finish** to complete the installation.

- There should now be a **Solidworks 2011** Icon on your Desktop, double click it, complete the registration and enjoy.
